

The screenshot displays the School Fusion user interface. On the left is a navigation sidebar with options like 'Welcome, Sean', 'My Account', 'Create', 'FusionPages', 'Teachers', 'Reports', 'Website Administration', 'Ask for Help', 'Logout', and 'Recent Activity'. The main content area shows a blog post titled 'Welcome to Technology at Antietam!' with a sub-header '(Displays 8/30/2013)'. The post text describes technology resources at Antietam Elementary and lists various tools like computer centers, smart boards, and digital cameras. Below the post is a 'Web Pages' section with 'Create Category' and 'Add Web Page' links. The 'Discussion Topics' section is circled in orange and contains an 'Add Topic' link. Below that is a 'Files' section with 'Sort Order', 'Add File(s)', and 'Add Folder' links.

1. Navigate to your class fusion page and login. Then click on "Add Topic".
2. Type the title and question/topic for your blog, and then click "Save and Return Home" if finished, or "Save, and Schedule Next Week's Content" if you are posting multiple topics.
3. Have your students begin posting a comment to the blog!
